

VISION JET™

CIRRUS
AIRCRAFT

THE PERSONAL JET DEFINED

The Cirrus Aircraft Vision Jet is the culmination of relentless innovation. As the world's first single-engine Personal Jet, it excels in performance while being simple to fly and easy to own and operate.

With the Vision Jet, we ushered in a new era of personal transportation where jet speed, jet comfort and jet convenience are accessible. And after winning numerous accolades and awards – including the Robert J. Collier Trophy – we are just getting started.

TRANSFORMATIVE CABIN

Designed around the largest cabin in its class, the unique carbon fiber fuselage creates spaciousness, with unexpected head and shoulder room. Panoramic windows create an immersive experience and modular seating adds versatility to the cabin – accommodating up to five adults and two children*.

*2 children up to 90lbs or lower

FAMILY SEATING

Full seating capacity for the entire family, because everyone will want to go.

EXECUTIVE SEATING

Luxuriously bolstered seats with a center console for exceptional accommodations.

COMPLETE SEATING

Family Seating with Executive Seating combine for every mission and passenger possibility.

CABIN COMFORT

CONNECTED EXPERIENCE

The Vision Jet is designed to fit effortlessly into your increasingly connected world. Industry-leading features add convenience and additional connectivity to the Perspective Touch+™ by Garmin® flight deck, while Gogo® Inflight WiFi and an entertainment center enhance the cabin experience, adding comfort and productivity.

BLUETOOTH® CONNECTIVITY

Bluetooth® connectivity adds the convenience of flight plan management, weather tracking and more on your device.

CIRRUS GLOBAL CONNECT

Satellite connectivity allows you to stay connected in the air or on the ground with worldwide text messaging, telephone service, and optional Datalink Weather outside of North America.

SIRIUSXM® WEATHER & RADIO

Never miss a beat. SiriusXM allows you to monitor the weather and enjoy your favorite music throughout your flight.

INFLIGHT WIFI

Available for the first time on the G2+ Vision Jet, Gogo InFlight WiFi brings added convenience and productivity to your flight. Stay connected to take care of business or enjoy a movie on the entertainment center to further enhance your cabin experience.

CIRRUS APPROACH™ FLIGHT TRAINING

CIRRUS AIRFRAME PARACHUTE SYSTEM®

ELECTRONIC STABILITY & PROTECTION

SAFE RETURN™ EMERGENCY AUTOLAND SYSTEM

TOTAL SAFETY SOLUTION

SAFETY REDEFINED

The ultimate level of confidence starts with the total safety solution exclusively offered in every Vision Jet. Available for the first time, the Safe Return™ emergency autoland system joins an array of revolutionary safety systems, including the Collier award-winning Cirrus Airframe Parachute System® (CAPS®), designed to protect the pilot and passengers.

AWARD-WINNING

Recipient of the Robert J. Collier Trophy for developing the world's first single-engine Personal Jet and implementing the Cirrus Airframe Parachute System® (CAPS®) on the Vision Jet.

As the world's most prestigious aviation award, the Collier Trophy is awarded each year by the National Aeronautic Association to the greatest achievement in aeronautics or astronautics.

**CIRRUS
PERSPECTIVE TOUCH+™**
 BY GARMIN®

POWERFUL FLIGHT DECK

One of the many hallmarks of Cirrus Aircraft innovation is our constant improvement of the flight experience – and Cirrus Perspective Touch+™ by Garmin® leads the way. As the center of the pilot experience, Perspective Touch+ integrates the sophisticated systems in the Vision Jet into one intuitive interface. Situational awareness is increased via an easy to use system, allowing attention to be focused elsewhere. Combined with autothrottle, which allows an operator to program an entire flight profile; including climbs and descents results in a level of enhanced automation never before seen in a Personal Jet.

ELECTRONIC STABILITY & PROTECTION

SAFE RETURN™ EMERGENCY AUTOLAND SYSTEM

WORRY-FREE OWNERSHIP

We've reinvented the entire ownership experience to include exclusive programs and benefits to enhance a lifetime of ownership.

Enjoy the convenience of owning and operating your Vision Jet through the Cirrus global network, or the enhanced ease of our JetStream™ ownership program. Plus, our Vision Pilots and Owners community connects you with fellow owners and Cirrus Aircraft's Vision Jet experts to take your knowledge to the next level and make your ownership experience even more rewarding.

EXPANDED CAPABILITIES

The Vision Jet adapts to the unique needs of every travel mission. With Generation 2+, the Williams FJ33-5A engine has been finely tuned with an expanded flight envelope to FL310 and the addition of newly optimized thrust to broaden your range, with access to more airports and weather conditions. The elevated performance allows you to increase your range, carry more and enjoy added reassurance for take-off in hot temperatures or high elevations. And with Reduced Vertical Separation Minimum (RVSM) capability, your Vision Jet can efficiently navigate higher flight levels.

The G2+ Vision Jet includes optimized take-off performance, with an increase of up to 20%, giving you:

- Access to Shorter Runways
- Increased Useful Load for Fuel and/or Passengers
- Increased Initial Climb Performance
- Improved Safety Margins on Take-Off

RE-IMAGINED DESIGNS

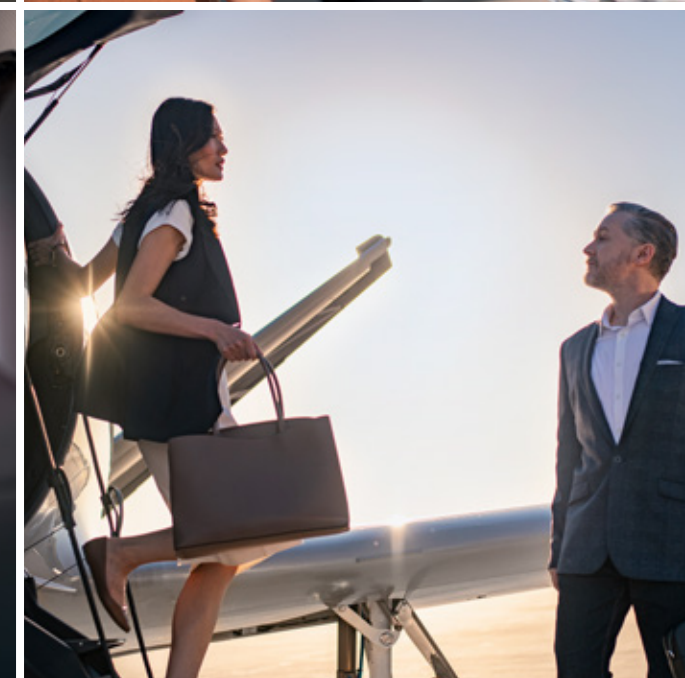

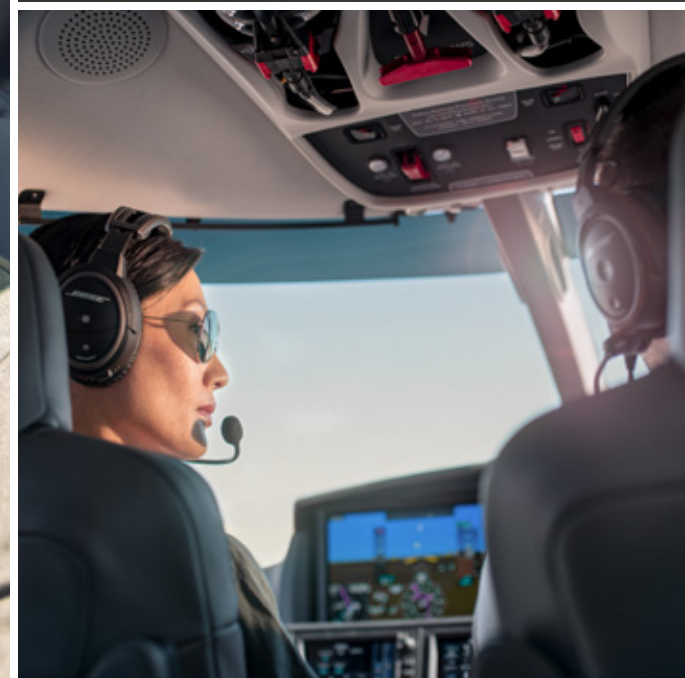

New colorways and design lines accentuate the distinct curve of the carbon fiber fuselage for an unmistakable presence on the runway.

INFLIGHT WIFI

Whether flying for business or pleasure, the addition of Gogo® InFlight WiFi adds comfort, convenience and connectivity while in flight.

ENHANCED PERFORMANCE

Optimized engine thrust broadens travel possibilities, bringing added load capacity and expanded access to airports and weather conditions. The enhanced performance increases your Vision Jet's capabilities with added peace of mind.

DISCOVER THE CIRRUS LIFE™

Imagine a life measured in moments. Closing a business deal 500 miles away and making it home in time for dinner. Enjoying a spontaneous weekend away on a whim. Flying high above the inconveniences of daily traffic in the height of innovation, safety and comfort.

The Cirrus Life™ erases boundaries. Home becomes more than where you rest your head every night. It becomes the people and places you love, no matter where they are, because getting there is just a short flight away in your Vision Jet.

Discovering how personal aviation can transform your life is where The Cirrus Life begins. Here's to starting your own journey.

THE VISION JET

The Cirrus Aircraft story is one of enthusiastic and continuous innovation. We started by re-imagining personal aviation with a piston aircraft that redefined performance, style, comfort and safety. And after six generations of the SR Series, we continue to raise the bar with improvements like sophisticated avionics and luxurious interiors.

The Vision Jet™ is the culmination of that same spirit of innovation. And it's one example of how our team is always dreaming up what's next in personal aviation.

With the Vision Jet, we ushered in a new era of personal transportation. It's an era where jet speed, jet comfort and jet convenience are accessible. And after winning numerous accolades and awards, including the Robert J. Collier Trophy, we are just getting started.
